

Career Objective

Motivated engineer seeking an **Entry level software or IT** role to apply strong programming, **Database, & Full stack Development** skills in building **Real world applications**, while continuously learning & contributing to innovative, **Technology driven solutions**.

Experience

Full Stack Development Intern

TECHFORGE

Dec,2026 - Jan,2027

- Developed a **Vendor Relationship Management** system using **React, Node.js, Express, & MySQL/MongoDB** for **vendor onboarding & performance tracking**.
- Built dashboards & workflow modules to **monitor purchase orders, invoices, & vendor analytics**.
- Created **Responsive user interfaces** with React for improved user Experience.

Projects

Vehicle Parking Management System

Mention skills used here

- Reduced vehicle entry & exit processing time by 80% through automated record management.
- Improved parking billing accuracy by 95% using automatic entry & exit time calculation.
- Reduced manual paperwork by 90% with digital parking slot allocation & database management.

Auto Quizzer

Mention skills used here

- Reduced quiz preparation time by 85% using AI based automatic question generation.
- Generated 50+ MCQs in seconds from study materials using NLP techniques.
- Improved topic coverage by 90% through automated extraction of key concepts.

Mine Guard

Mention skills used here

- Reduced hazard detection time by 90% through Real time sensor monitoring.
- Sent Emergency alerts within 2-5 Seconds when unsafe conditions were detected.
- Enabled 24/7 Continuous Monitoring, reducing manual safety inspections by 80%.

Technical Skills

Programming Languages

Java, Python

Web Technologies

HTML, CSS, JavaScript

Database

MySQL, SQLite

Concepts

OOP, Data Structures

Certifications

- Introduction to Industry 4.0 & Industrial IoT**
NPTEL (IIT Kharagpur)
- Introduction to Internet of Things**
NPTEL (IIT Kharagpur)
- Full Stack Development**
TECHFORGE

Research Aspects

- AutoQuizzer**
AI Powered Application that Generates MCQs
(IEEE Paper) (ICECMSN 2025)
- High Fidelity Coffee Plant Detection**
Using Yolov8 in Precision Agriculture
(IEEE Paper) (PUNECON 2025)
